For the safety of our department and public, the Dix Hills Fire Department will respond to alarms as directed by the Incident Commander using the following code:

Code One Response

- Proceed to the alarm without any warning lights or audible warning devices, obeying all vehicle and traffic.

Code Two Response

- Proceed to alarm with all warning lights on. Do not use the audible warning devices. Obey all vehicle and traffic laws.

Code Three Response

- Proceed to alarm using all warning lights and audible warning devices. Use due caution whenever it is necessary to disobey vehicle and traffic.

Notes:

- All apparatus should respond Code Three to all alarms until the Incident Commander issues an order differently.
- The Code Response System is not a replacement for a signal 4 (situation under control) nor is a signal 4 an automatic Code One response.
