1. The fire probationary member may be permitted to respond to the firehouse after such member has completed the Dix Hills Fire Department Fire School Safety Course and has permission of the company captain.

2. The fire probationary member, who has not completed Dix Hills Fire Department Fire School, may ride department apparatus on alarms after having completed the Dix Hills Fire Department Fire School Safety Course if permission is granted by the company captain. This probationary member shall only ride the apparatus when a company line officer is on the apparatus and the officer has given permission to ride the apparatus.

3. The fire probationary member may not respond on a mutual aid alarm for 13/35.

4. Only one (1) fire probationary member may respond on the apparatus for any alarm other then a signal 12 or 13/35. One probationary member per department apparatus, with the presence of and permission of a company officer, is permitted to respond on stand-by's and mutual aid.

5. For all signal 24/12's more than one probationary member per department apparatus is permitted. For each probationary member there shall be one senior firefighter for a buddy system. However, the total number of fire probationary members shall not exceed a total of two (2) probationary members per department apparatus.

6. A probationary member shall be permitted to take additional courses and attend seminars once the member has completed Suffolk County Fire School. If the number of total members interested in attending a seminar or course exceeds the number of available openings, probationary members will be selected to attend after all senior members are chosen to attend.
