SOP 1404 – DEPARTMENT MEMBER SPORTS POLICY

Any department member who wishes to participate in any department sport shall be in compliance with their required monthly trainings and monthly points. All sport's committee chairpersons shall submit a list of department members who participate within their committee immediately before the season of the sport or upon request of the Chief of Department. The list shall be reviewed by the Chief of Department, company chief and company captain.

Any member found to be not in compliance with department points or trainings shall not participate in any sporting event until the found deficiency is corrected. The company captain shall notify the department member and the sport's chairperson of the deficiency. Once the deficiency has been corrected, the company captain shall notify the Chief of Department and the sport's committee chairperson that the department member is eligible for participation.

Any department member who is removed from sports eligibility due to point or training deficiency and participates after notification shall be charged for violation of this SOP and have a hearing before the Council of Officers.
